THE BRITISH COLUMBIAN.

NO. 55. VOL. 7.] NEW WESTMINSTER, SATURDAY, AUGUST 24, 1867. [PRICE 6d. or 12 cts.

LEGH HARNETT ON BRITISH COLUMBIA.

From a letter written by Mr. Harnett, under date, Barkerville, Cariboo, July 31st 1867, we make the following interesting extract:—"British Columbia, proper, appears to me to begin at the mouth of the Thompson river, and thence to Cariboo, is one vast repository of mineral wealth. Foremost in reliability, though not for immediate use, is the copper formation, precisely the same in extent, east and west, for twenty-five miles as in California, while the veins generally are better developed here than there. Following these veins in a linear course, a little east of south, they will be found to intersect Hope district. I am inclined, therefore, to the opinion, as silver is generally found in connection with copper at first, that no silver will be found at Hope, more particularly. If I rightly understand the position of the tunnel commenced there for silver, it would be impossible to bring Hope within the linear course of the Cherry Creek veins. So far as I have seen, the different formations in their divisions and subdivisions agree exactly with the same in California. Hence the best Gold and silver veins will be found east of the copper system, commencing a few miles above the mouth of the Thompson and extending east beyond the Cornwall ranch. From that line I should travel east for good gold and silver veins. Of their existence in this country precisely as they are found in California I have now no doubt at all. If one division of the great California mineral formation is found correct, and the copper formation is most unquestionably, then it is not *unreasonable* to conclude the others will be found equally correct, for their creation and continuity are governed by eternal laws that know no change and no chance. Such were my observations as I travelled so far through the mineral regions. My observations since assure me that my labors will be both successful and useful, and that within a very short period the gold veins on Canyon Creek, and the silver veins on Cherry Creek, will be as valuable and distinguished as any California or Nevada can boast.

AURIFEROUS LODES.

The deposits of gold formed and governed by the action of the water, instead of electricity as in veins, are, of course, more difficult to find, and afterwards to follow, than all others. There is, however, but one safe theory by which to determine their course, and that is to judge of the past by the present water channels. The miners here are now directing their attention to this matter, and making the most correct observations. Hence many new deposits are being discovered in their search for old ones, which, though they may not enrich the individual to the same extent as formerly, yet will render the community infinitely more prosperous: because when men are satisfied with, and able to work $10 ground, there will be much more gold taken out than ever. This happy period is rapidly approaching; and from it, in my opinion, the same effect will be seen in British Columbia as was seen in California—a new era of unthought of and lasting prosperity. These auriferous leads in this country are, I think, more determined in their course than in many parts of California, and in a short time will not be more expensive to work. From Lytton to Cariboo you hear men every day talking of ground that will pay with a proper hydraulic apparatus, and I cannot for a moment, judging from the general formation, hesitate to confirm their statements. I know no part of California which contains so extensive and uniform gravel formations as I find here, of which *nothing* is yet known. When we remember that much of the dirt washed in California by hydraulic methods, take for instance the great 'blue lead,' only pays water-money or thereabout, and that gold is only found in quantity as the bed rock is approached, I cannot but be assured that the application of the 'great system' of gold mining will produce the same results here as elsewhere. Neither is there a greater difficulty in obtaining a sufficient supply of water, if competent men are employed to introduce it. The great obstacle in the way of hydraulic mining in Cariboo at present is the want of iron pipes. The freight, it is true, would be enormous. But cannot they be manufactured at Soda Creek or Quesnelmouth and then freighted by water to Cottonwood river, to which place, I understand, the Fraser is navigable? That would only leave fifty miles of land carriage over a portion of the road always in good order, and reduce the expense materially. However, with necessity will come the remedy; difficulties will vanish before enterprise; money will bring capital; but if this should not be so soon as I anticipate, I have only to look round a radius of ten miles from Barkerville to feel satisfied that the spirit which has done such wonders already and done them so well, without outside aid, will be true to itself and finish nobly what it has commenced nobly. The miners of Cariboo deserve all praise, encouragement, support. I am amazed at the extent and character of their past labors; and I am glad to be able to say I am equally amazed at the extent and character of their future prospects. You need have no doubt of the gold fields of Cariboo. The richest harvest has yet to be gathered.

AGRICULTURE.

The configuration of this country is very singular. It seems so strange to find a country expand into such grand dimensions as you travel from the seaboard. But it's just right, although a reversion of the general order of things. We find the first thing to occupy the attention of the Canadian Parliament is the admission of this colony into the Confederation. No doubt it will be admitted. What then? The configuration of this country is precisely what the wants of man in that event require. I have long felt that one overland route cannot be sufficient for the great nation springing up on the Pacific coast. There must be a Northern as well as a Southern. Now you see as the future emigration crosses the Rocky Mountains, their pilgrimage is ended; instead of having six hundred miles farther to travel as in California. Mining, farming, stock raising are open to them to choose between at once, with ample prospects in each to invite immediate settlement. I know no portion of California, except one or two of its favored spots, that can compete with British Columbia in these respects. To-day from Lillooet to Soda creek, North and South, and how far East and West I do not know, is a perfect garden, full of Agricultural and pastoral wealth, fruits and vegetables of splendid character, pasturage and natural hay, in endless profusion—crops of wheat and barley that would do credit to any country. What impious trash to talk of this country dying out! Let these things be made known through your columns in England, Canada, California, everywhere, constantly, vigorously, and you will do much towards helping your country to take that place among the great nations springing up so rapidly on the glorious old Pacific, to which she is so justly entitled. That seems to me the higher duty of the Press, instead of wrangling over the dry bones of political issues that are dead. If it be said that the season is short, and the climate bad, let us remember that nature is always retributive, and that other countries ranking high to-day suffer more in these respects than you do. Even California, in many places North, is no better off. Taken altogether, I am astonished at the fertility of British Columbia; and if I am accused of seeing *too much* I retort upon others by saying, they see far *too little*."

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours,
ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration of the uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

THIS JOURNAL is the oldest newspaper published in British Columbia; is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony.

DAVID SPENCER, in Victoria, and L. P. FISHER, in San Francisco, are our authorized Agents.

This paper may be read gratuitously in London at the Central Establishment of "HOLLOWAY'S PILLS AND OINTMENT," 244, Strand, where advertisements and subscriptions for the same are received.

The British Columbian.

SATURDAY, AUGUST 24, 1867.

MR. HARNETT ON BRITISH COLUMBIA.

An extract from a letter, written by Mr. Legh Harnett, will be found in another column. The fluency and piquancy which characterize Mr. Harnett's writings would, under any circumstances, invest them with interest; but his letters on British Columbia owe their importance chiefly to the fact that they convey to the public the opinions and sentiments of a gentleman possessing an extraordinary amount of shrewd observation, backed up by many years practical experience in a country contiguous and similar, in many respects to our own. Another element of importance attaching to these letters, one which should not be lost sight of, is the fact that Mr. Harnett is not only peculiarly fitted to pass an intelligent opinion upon the chatacter of this colony, but his disinterestedness must leave his judgement wholly unbiassed. Indeed if his mind were subject to the slightest bias it would naturally be against rather than in favor of praising British Columbia. While, therefore, the opinions of some persons might fairly be supposed to be received with some degree of allowance, his need not be subjected to the slightest discount. In our capacity of a public journalist we have frequently been accused of exaggerating both the agricultural and mineral resources of this country. Actual development—too slow for the general impatience to get rich which has proved so inimical to the best interests of the country—is, however gradually but surely substantiating our most extravagant estimate, an estimate now so fully and emphatically endorsed by Mr. Harnett. And, indeed, his opinions with respect to the geological formation and mineralogical features of British Columbia, although quite original so far as he is concerned, are little more than a reiteration of the opinions already expressed by every man who has brought to personal observation scientific knowledge and practical experience. So far as the agricultural capacity of the country is concerned there is little need for scientific observation or theoretical pronouncement when we have evidence of a much more tangible nature before us in the waving fields of ripening grain which skirt the entire route from the Gulf of Georgia to the confines of Barkerville, on Williams creek. These broad acres, groaning under crops unsurpassed in any country, and the perfection to which vegetables, fruits, melons, tomatoes and other members of the more tender family have been brought, pronounces more emphatically than any mere words could possibly do, the remarkable adaptness of the colony for sustaining a large and thrifty population. The rebuke administered to the Press by Mr. Harnett is peculiarly appropiate and merited, in so far as the Press of Victoria is concerned. No evidence short of personal observation would convince one that it would be possible to be so completely blinded and carried away by narrow considerations of local self-interest. During several years past the journalists of Victoria have devoted themselves to the extremely unpatriotic work of decrying the climate and resources of the mainland with a zeal and perseverance which would lead one to suppose that their salvation depended upon its annihilation. While every interest has been languishing and the untold mineral wealth of the country lying dormant year after year for lack of the necessary bone and muscle to develope its resources the Victoria Journals have been warning all the world to stay away from a country so misgoverned, so utterly crushed by a rate of taxation without a parallel in the history of any people, so impoverished in soil, so inhospitable in climate, so over-run by mosquitoes and officials as to be unfit for aught but a preserve for bears and a hunting ground for the Red man. Such has been their theme—such their hellish work; and it is no wonder that the Colony is now suffering the consequences of the promulgation of what Mr. Harnett calls "impious trash."

FROM WASHOE.

Amongst the passengers who arrived from Yale yesterday were Mr. Claudet, Superintendent of Assay, and Mr. Geo. Deitz, who have just returned from the Cherry creek silver mines—the Washoe of British Columbia. Mr. Deitz brought down with him a lump of the ore (54 pounds in weight) which had been broken from a section taken from the lead, 150lbs. in weight. It is of the rich blue ore to which we alluded a few weeks ago as having assayed so satisfactorily. The lead is three feet in width and looks exceedingly well as far as it has been followed. The men now employed on the lead are engaged in directing the waters of the creek so as to admit of further workings. Mr. Deitz, one of the heaviest share-holders, appears greatly elated at the prospects of these mines.

INCREASING AND IMPROVING.—Notwithstanding the sneering and spiteful allusions of the New Westminster "special" of a Victoria papers it is gratifying to note the rapid increase of our trade with Burrard Inlet. It is only five weeks since our enterprising fellow-townsman, Mr. Lewis, established a line of stages with a view to making two trips a week between the city and the Inlet. During the present week he has averaged a trip a day and has carried as many as twelve passengers at a time. We shall have five large ships in the Inlet loading with lumber in a few days, when Mr. Lewis will probably have to place a second line upon the route. The Bridge across the ravine at Brighton has been completed, and the stage now drives up to the Hotel door.

BRIGHTON ROAD.—We have several times called the attention of the authorities to the necessity for having certain repairs made upon the Brighton road before the fall rains set in, not only upon the principle that "a stitch in time saves nine," but because the rapidly increasing traffic over the road demanded it. We are glad to learn that a petition to His Excellency the Governor, upon the subject is now in course of signature.

THE INLET.—Capt. Stamp's steamer Isabel, reached the inner harbor of Burrard Inlet on Thursday evening, with the ship Anna Dorethea in tow for Messrs. Moody & co's mill. Mr. Thos. Cunningham, of Cunningham Bros. was a passenger by the Isabel, and came over in Mr. Lewis' Stage. The Hon. Mr. Hamley went down by her.

FROM VICTORIA.—The Government despatch boat Leviathan came up from Victoria, *viâ* San Juan Island, on Thursday. The Hon. Mr. Trutch, A. T. Bushby, Esq., and Capt. Wylde, of H.M Customs, were on board. The last named gentleman left with the Leviathan yesterday morning at nine o'clock.

FROM YALE.—The str. Lillooet, Capt. Fleming, arrived from Yale yesterday, bringing a few passengers and a local mail and express, the Cariboo express not having reached Yale up to the time of the sailing of the Lillooet.

FOR YALE.—The steamers Onward and Lillooet both sailed for Yale shortly after noon on Thursday, carrying forward considerable freight and a number of passengers.

LUMBER.—The steamer Fly, on her downward trip, a few days ago, took 60,000 feet of lumber to Victoria from Messrs. Moody & Co's Mills, Burrard Inlet.

OBLIGING.—Capt. Frain was obliging enough to wait here for the return of the up-river steamers, in order to carry forward mails and passengers.

The "FLY" is expected back on Tuesday evening, sailing from Victoria probably about nine o'clock in the morning.

The British Columbian.

SATURDAY, AUGUST 24, 1867.

FROM VICTORIA.—The str. Fly, Capt. Frain, arrived from Victoria on Thursday morning. She brought a few passengers and a little over 100 tons of merchandise. The following are the only items of Victoria news worthy of notice:—There is unusual activity at Esquimalt since the arrival of Admiral Hastings. A naval club-house is nearly completed; the Gunboat Grappler is being thoroughly repaired; and borings are being made with a view to ascertain the adaptability of the place for a dry-dock. ——On Tuesday the remains of the late Henry Cantrill were interred with Masonic honors.—The new iron bark Mercara, 395 tons, sailed from Liverpool for this colony, June 10th, consigned to Janion Green & Rhodes. The H B Co,s bark Prince of Wales is also on the way, and will be due in October. The Malacca sailed for the Southern station at 9 o'clock on Tuesday evening the 15th. A midshipman, whose watch was slow, was left behind.—The steamship Active sailed for San Francisco on Monday. She took away $232,156 in treasure, and 45 passengers.—The British ship Australind arrived on Monday from San Francisco. She is consigned to Capt. Stamp, and will take in a cargo of lumber at his Burrard Inlet mills.

FROM NANAIMO.—The *Tribune* of the 10th only reached us on Thursday. Mr. John Dick, the contractor for putting down the new bore at Chase River Plains, met with rather a severe accident on the 5th, but had so far recovered as to be able to ride out.—Mr. R. Nightingale opened his splendid new hotel on the 8th.——Mr. J. M. Sabiston is about to erect a new hotel on Victoria Crescent, a little below the Masonic Hall.——The surveying steamer Beaver, Commander Pender, coaled on the 8th and proceeded north on a cruise.——The H. B. Co's str. Otter, Capt. Lewis, started for the north the previous Saturday, with a few passengers and a large freight. ——The Crosby sailed for Portland on the 7th, with a cargo of coal for the gas company.

THE LATE MR. YOUNG.—A sermon on the death of Mr. Henry Young (who was drowned lately near Hope) was preached by the Rev. R. Jamieson, in the Presbyterian Church, Nanaimo, on Sunday the 11th inst., to a large congregation. Mr. Young was a member of that Church for over a year, and was very highly esteemed by all acquainted with him. In the course of the sermon on the text,—"There is but a step between me and death,"— Mr. Jamieson bore strong testimony to the amiable disposition and consistent conduct of the deceased.

FOR VICTORIA.—The str. Fly, Capt Frain, sailed for Victoria last evening, with mails and passengers. She will call at San Juan Island on the way down and take on 100 head of cattle for Victoria.

SLIGHT INDICATION.—It will be recollected that several instruments were stolen from the office of Lands and Works in the spring. A part of the missing theodolite was found on the North road the other day. This circumstance would appear, to point to Indians as the thieves.

FAVORABLE WEATHER.—The weather has, during the past fortnight, been most favorable for harvesting, and we understand the wheat crops are being secured in excellent condition. The winter, or fall wheat, which is coming into general favor, is especially good.

FROM SALT SPRING ISLAND.—A schooner arrived from Salt Spring Island yesterday with a cargo of sandstone for the new Church.

REWARD. A reward of $000,000, is offered for such information as will lead to the identification of "J. R. A. Bilk."

If you wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RULOFSON, 429 Montgomery street, San Francisco.

TELEGRAPHIC.

EUROPE.

CONSTANTINOPLE, Aug. 15.—The Sultan upon his return received a report from his Grand Viceroy left in charge of the Government during his absence. In his reply the Sultan says the result of his observation in his journey is that he intends to inaugurate an era of progress for the Ottoman Empire, and promises to submit a series of measures for reforms for the benefit of his subjects.

BUCHAREST, August 15.—All the members of the Danubian Cabinet have tendered their resignation.

Paris, August 15.—Despatches from Constantinople state that the Turkish Government, after giving due consideration to the collective vote of the European Powers, cannot admit the intervention of other governments in the affairs of Candia, and refuses to consent to the joint enquiry proposed.

LONDON, August 12. — Information is received that an American ship recently attempted to land at the Island of Formosa, but the officer in charge of the boat was killed by the natives. The name of the vessel is not given.

It is stated that the Chinese merchants at Shanghae refuse Mexican dollars coined by Maximilian.

August 13.—Advices from Shanghae say the United States authorities not receiving satisfaction or apology regarding the bark Rover outrage, the Hartford and Wyoming were ordered to Formosa. On arriving off shore a demand was made for the surrender of the murderers which was not complied with, and it being apparent that the natives were preparing for a fight, both vessels vigorously shelled the shore. Subsequently several boat loads of sailors and marines effected a landing. A sharp fight ensued lasting four hours. The heat was intense and fifteen officers and men were reported sunstruck. Lieut. Mackenzie was killed. At night the fighting party withdrew and the bombardment was resumed, lasting till the natives disappeared. The vessels then returned to Shanghae.

August 15.—The Reform Bill has been signed by the Queen and is now law.

It is stated on the best authority that the Russian Government has purchased the powerful American fleet now in the Mediterranean, and is endeavoring to secure other war vessels from the United States.

MEXICO.

Mexican advices *viâ* Havana say that Juarez has ordered Santa Anna to be tried under the law of January, 1862, the same which Maximilian was tried under. The capture of Marquez and Hardonia is reiterated. Prince Salm Salm was among the list of condemned officers, his wife trying hard to save his life.

CANADA.

The Fenian scare is becoming prevalent at Montreal. It is apprehended they propose a raid at the time of the coming election.

EASTERN STATES.

BALTIMORE, Aug. 7.—Mrs. Jeff Davis is arrived to-day. She leaves for Canada to join her husband.

NEW YORK, AUG. 12.—After long delay, supposed to be owing to Seward's taking his part, Stanton has been ousted from office. At 10 o'clock this morning the President sent a communication to Stanton, suspending him from office, and instructing him to transfer all books, &c., to Gen. Grant; Secretary of War *ad. interim*. Stanton gave way, and Grant is acting in his new capacity.

Aug. 13.—It is rumored on the street to-day that $100,000,000 have been stolen from the Treasury at Washington.

General Rousseau will sail on the 21st for San Francisco, where he will take a war vessel for Sitka. Rousseau will afterwards return to Portland as the headquarters of his department.

A Mexican vessel has just arrived. She brings intelligence that the body of Maximilian has been delivered to the Prussian Ambassador, to be conveyed to Austria.

General Grant, in a letter to Stanton, upon accepting the war portfolio, compliments the Secretary for the patriotism, firmness and ability with which he had discharged his duties.

A Washington special says Randall and Seward, it is generally believed, will sever connection with the Administration. Both are disgusted with the President. After the late Cabinet meeting, Seward and Stanton were out riding together, which, with other circumstances, give color to reports that Seward will soon resign.

Another special says it is stated that the President desires all the Cabinet officers to resign, so that he may make a general revision of his Cabinet.

August 15.—Seventeen Missionaries for Arabia and Turkey, will sail on the 24th and will establish a type foundry at Beyroot; another party raised $50,000 in this country to establish a Bible house at Constantinople.

August 16.—Rousseau and the Russian Commissioner, with William Dodge, Special Agent for the Treasury, and Collector of the port of Sitka, leaves on the next steamer.

AUGUSTA, GA., August 13.—General Pope issued an order that all official advertisements, whether State or municipal, shall be given only to papers which sustain the reconstruction measures of the Congress.

Prominent Southern Republicans are preparing a bill to enforce the present confiscation laws, and cause the entire seceded States to be re-surveyed in the same manner as Territories. Pre-emption rights will be given to freedmen and soldiers. Three hundred millions of the proceeds will be used in reimbursing loyal men for property confiscated or destroyed, and the balance to be devoted to the payment of pensions.

August 15.—Registration in Alabama so far as heard from shows the blacks ahead 20,000.

GALVESTON, August 16.—There were over one thousand cases of yellow fever in this city yesterday, and about thirty deaths daily.

CHICAGO, August 15.—An Omaha despatch says a wagon train escorted by Major Howell with a small force was attacked five miles from Fort Hall Kearny, by three hundred Indians. A desperate fight ensued last evening for three hours. Reinforcements arrived and the Indians retreated with a loss of sixty killed. The whites lost a Lieutenant and two men.

August 16.—At a Fenian pic-nic today Gen. Spear made a speech in which he said there would soon be a movement which will shake the world, and result in the enfranchisement of Ireland.

OUR VICTORIA LETTER.

To the Editor of the British Columbian.

SIR.—I observe that a gentleman who rejoices in the euphonious pseudonym of "Bilk," and who has lately taken up his residence at New Westminster for business purposes, has commenced a series of letters to the *Colonist* here, descriptive of the Capital, and containing matter historical, commercial, local, and personal. Being at Victoria for a few days I thought it might while away an idle hour if I addressed *you* a letter from Victoria. I am not going to follow our illustrious friend "Bilk" in his tirades about "new bricks" because there are none in course of erection at Victoria, nor do I purpose to laugh at, or comment on, the perseverance, patriotism, loyalty, &c., of Victoria, for the simple reason that those qualities have no existence here. I do not even propose to descend to any vulgar personalities in regard to the good citizens of Victoria. I shall not "see more" meteors than any other man, nor pour out "whole-brooks" of insolent twaddle about any respectable merchants of this city. It is my intention simply to make a few comments on a public institution here, which is fairly open to praise or blame, I mean the public press of Victoria; and to criticise its influence on the welfare of this important Colony.

In a letter from Mr. Legh Harnett to the *Colonist*, that gentleman, in commentingon the resources of the interior, laments that the endeavors of the press should not have been turned towards developing our resources, and inviting immigrants to our shores instead of fighting over the dry bones of politics. This worthy gentleman has struck at the very root of my grievance. I have closely watched the Victoria press for the last few years and I am most completely convinced that one of the main causes of our present depressed condition is to be laid at the door of that press.

What would we think of anyone who, in the interests of his employer, always cried "stinking fish;" even though his piscatory ware were not the most savory in the world? But what should we think of the same man if he persisted in crying "stinking fish" when he knew that they were just fresh from the ocean?

It is useless to blink the fact that such is the course that the Victoria press has consistently pursued. It is useless to say that nobody listens to or notices what colonial papers say. These papers go abroad, people seek information from them, and govern themselves accordingly. And what have they found? Why instead of any descriptions of the resources of the country—its adaptability for growth of cereals, its markets, its gold, its silver, its mines, its timber, its furs, its fish, &c., &c.—they find nothing but miserable laments about over-taxation (based on false calculations,) bad Government, grasping officials, musquitos, swamps, rocks, arid plains and frozen mountains. Neither can we hoodwink ourselves under the impression that this press believed what it published. They *knew* that British Columbia was admirably adapted for farming, grazing, culture of cereals, &c., &c., but they did not wish to see these resources developed. Blind leaders of blind followers, they thought that if agriculture or manufactures took any steps in the right direction in B. C. that their pet Victoria would be injured. They desired only to see Victoria at one end a supplier, and Cariboo at the other end a consumer. Blind to the fact that every dollar saved to the country by home-grown produce would ultimately find its way into the pockets of the Victoria merchant, though, in the first instance, he might lose his customary 3 per cent profit.

I am more particularly struck with their attitude just now, when this "Capital" war is raging. So terrified are they lest New Westminster should increase a jot, that they fail to notice the growing and important lumber trade at Burrards Inlet, and do not even chronicle the fact, as an item of news that two large ships went hence to Burrards Inlet in the course of two days. Were they wise they would trumpet these things in every direction, for the greater part of the profit of this trade would ultimately find its way to Victoria. The same remarks apply to the Capital question. They fail to see that New Westminster, town and district, is a good customer to Victoria, and will be more so, if the Capital grows and flourishes, while, had they their wish and could sweep poor N. W. from the face of the earth, they cannot see that they would be killing an established and growing interest, while they could in no way profit themselves or the Colony at large by its fall. But all these things are, alas, as yet hidden from them, they blind their eyes to facts, and shout, "Victoria" against all comers, all interests, and all chance of prosperity, for until they lay aside the abuse of the Colony on the one hand, and take up its praises on the other, so long shall we remain a poor, thinly populated, and struggling community.

One word about our friend "Bilk;" if he proposes to do business at New Westminster, he had better leave off abusing us—for if he is not known now he very shortly will be. If however, he be merely a sojourner, —a Yankee and annexation proclivities why no one will mind him; but he will be a correspondent after the very heart of the *Colonist* if he can add one more "cram" to the thousands that have already been published in that startling journal.

PERSEVERE AND CONQUER.

VICTORIA, August 21st, 1867.

NONE but a physician knows how much a reliable *alterative* is needed by the people. On all sides of us, in all communities everywhere, there are multitudes that suffer from complaints that nothing but an *alterative* cures. Hence a great many of them have been made and put abroad with the assurance of being effectual. But they fail to accomplish the cure they promise because they have not the intrinsic virtues they claim. In this state of the case, Dr. J. C. Ayer & Co., of Lowell, have supplied us with a compound Extract of Sarsaparilla, which does prove to be the long desired remedy. Its peculiar difference from other kindred preparations in market is that it *cures* the diseases for which it is recommended, while they do not. We are assured of this fact by more than one of our intelligent Physicians in this neighborhood and have the further evidence of our own experience of its truth.—*Tennessee Farmer, Nashville, Tenn.*

HOLLOWAY'S OINTMENT.——Soundness renewed.—Any indolent ulcer or chronic sore should immediately have this excellent ungent applied to it in the manner pointed out in its accompanying directions. For thoroughly cleansing a diseased or broken skin, and for rousing its poisoned vessels or depressed nerves to healthy action, nothing can surpass Holloway's well-known Ointment. It strikingly shows its power when applied to the "old man's ulcer," which settles in the leg and often becomes most intractable under ordinary treatment, though no case has yet withstood this cooling and healing salve. The troublesome swellings preparatory to most ulcerations of the legs are likewise reduced by the diligent application of Holloway's ungent, by giving strength to the weakened circulation through the capillaries.

GOOD ACCOMMODATION.—Travellers to Cariboo this season will find most comfortable quarters at the Colonia Hotel, Soda Creek, the enterprising proprietors Messrs. McLeese & Senay being prepared to afford to those who may favor them with a call increased accommodation at a much less cost than hitherto.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm; providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills, the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline; till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,		Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes and Sand-flies,	Fistulas,	Scurvy,
	Gout,	Sore-heads,
Coco-bay,	Glandular Swellings,	Tumors,
Chiego-foot,		Ulcers,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY, 224, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s., each Pot.

, There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. de5ly

AYER'S CATHARTIC PILLS.

ARE you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering & disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse the stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

MOORE & Co., Agents, Victoria, V. I. Sold by H. W. SMITH and Dr. JONES, New Westminster, and by every dealer in the Colony.

PUBLIC AUCTION.

S.T-1860-X.

"Jes' so!"—"Exactly!"—Solon Shingle said; they were there "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night, he took Plantation Bitters; if he lacked appetite, was weak, languid or mentally oppressed, he took Plantation Bitters; and they never failed to set him on his pins square and firm.

A few bottles of PLANTATION BITTERS
Will cure Nervous Headache,
" Cold Extremities and Feverish Lips,
" Sour Stomach and Fetid Breath,
" Flatulency and Indigestion,
" Nervous Affections,
" Excessive Fatigue and Short Breath,
" Pain over the Eyes,
" Mental Despondency,
" Prostration; Great Weakness,
" Sallow Complexion, Weak Bowels, &c.
Which are evidences of
LIVER COMPLAINT AND DYSPEPSIA.

After a long research, we are able to present the most present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

T. H. DRAKE & CO.,
New York City,
Proprietors.

Sold by all Druggists, Grocers, country stores and dealers throughout the world.

REDINGTON & CO.,

Barnes' Magnolia Water.

A toilet delight! The ladies' treasure and gentlemens' boon! The "sweetest thing" and largest quantity. Manufactured from the rich Southern Magnolia. Used for bathing the face and person, and to render the skin soft and fresh, to prevent eruptions, and to perfume clothing, &c.

It overcomes the unpleasant odor of prespiration.
It removes redness, tan, blotches, &c.
It cures nervous headache and allays inflammation.
It cools, softens, and adds delicacy to the skin.
It yields a subdued and lasting perfume.
It cures musqueto bites and sting of insects.
It contains no material injurious to the skin.

It is what every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or Toilet Water afterwards.

Sold by Druggists and Dealers everywhere.

DEMAS BARNES & CO.,
se19 Props. Exclusive Agens, N. Y.

Lyons' Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents the hair turning grey and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car load, and yet its almost incredible demand is daily increasing, and there is hardly a country store that does not keep it, or a family that does not use it.

se19 E. THOMAS LYON, Chemist, N. Y.

Lyons' Extract Ginger.

LYONS' EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Sold everywhere, at fifty cents per bottle. Ask for "Lyon's" Pure Extract. Take no other. See that the private U. S. Stamp of Demas Barnes & Co., is over the cork of each package. None other is genuine. se19

Mustang Liniment.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment.

For cuts, sprains, burns, swellings and caked breasts the Mexican Mustang Liniment is a certain cure.

For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment.

For spavined horses, the poll evil, ringbone and sweeney, the Mexican Mustang Liniment never fails.

For wind galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold.

Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

"In lifting the kettle from the fire, it tipped over and scalded my hands terribly. * * The Mustang Liniment extracted the pain, caused the sore to heal rapidly, and left very little scar.

CHAS. FOSTER, 420 Broad St., Phila.

Mr. S. Litch, of Hyde Park, Vt., writes: "My horse was considered worthless, (spavin,) but since the use of the Mustang Liniment I have sold him for $150. Your Liniment is doing wonders up here."

All genuine is wrapped in steel plate engravings, signed G. W. Westbrook, Chemist, and also has the private U. S. stamp of Demas Barnes & Co. over the top. Look closely. Sold by all Druggists, at 25, 50 cts., and $100. se19

Lyons' Flea Powder.

DEATH TO FLEAS.—It is well known that Lyon's genuine Magnetic Powder, will perfectly destroy everything in the shade of fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of E. Lyon, and the private stamp of Demas Barnes & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other. se19

PLANTATION BITTERS,
MAGNOLIA WATER,
LYON'S KATHAIRON

All the above articles for sale by H. W. SMITH and Dr. M. JONES Druggists, &c., New Westminster, B. C. and every dealer in the Colony. se19

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing the noxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., as attested by myriads of witnesses. Excessive weakness, debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilarating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every stage perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may lead to some serious disorders of the heart, or other vital organs. Eat moderately of solids; take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil,
Asthma,		
Bilious Complaints,	Fevers of all kinds,	Sore Throats,
Blotches on the Skin,	Fits,	Stone and Gravel,
	Gout,	Secondary Symptoms,
Bowel Complaints,	Head-ache,	
	Indigestion,	Tic Douloureux,
Colics,	Inflammation,	Tumours,
Constipation of the Bowels,	Jaundice,	Ulcers,
	Liver Complaints,	Venereal Affections,
Consumption,	Lumbago,	
Debility,	Piles,	Worms of all kinds,
Dropsy,	Rheumatism,	Weakness from whatever cause,
Dysentery,	Retention of Urine,	&c., &c.
Erysipelas,		

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s. 22s., and 33s., each Box.

, There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guillance of patients in every disorder are affixed to each box.
